1515 HOLCOMBE BLVD BOX 63

Type: ROUTINE INSPECTION

Date: Jun-21-2011

HOUSTON, TX 77030

3.125 (a)

FACILITIES, GENERAL

(a) Structural strength. The facility must be constructed of such material and of such strength as appropriate for the animals involved. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

It was noted that two primary enclosures housing a pig each had a gap in the elevated flooring that predisposed the two pigs to injury. Management was informed that the facility must be constructed of such material and of such strength as appropriate for the animals involved. The indoor facility shall be structurally sound and shall be maintained in good repair to protect the animals from injury.

Corrected immediately.

The last routine inspection and exit briefing were conducted on 07/13/2010. This routine inspection and exit briefing were conducted with management and USDA VMOS, Elizabeth Pannill and Earnest H. Johnson.
